

FIG . I

FIG. 2

A perspective view of a rectangular plate 11, which is a thin, flat rectangular object. A curved line points from the label '11' to the right edge of the plate.

FIG. 1 is a perspective view of a rectangular frame 12. The frame 12 is shown as a rectangular structure with a central opening, viewed from an angle that shows its top and side surfaces.

A perspective view of a chip 131. The chip is a square component with a label '131' on its top surface. It is surrounded by numerous pins 132, which are shown as rectangular protrusions extending from the bottom surface of the chip. The pins are arranged in a grid-like pattern, with some pins being longer than others, suggesting a specific pin configuration or a multi-layered structure. A dashed line outlines the area around the chip and pins.
